Superhydrophobicity and Wetting Symposium

Symposium

We bring together researchers working in the field of wetting to discuss its latest developments with the leading international experts.

Intensive course on surface tension and wetting

Following the symposium, a free-of-charge intensive course on surface tension and wetting will be lectured by **David Quéré** and **Alidad Amirfazli**. The course suits both newcomers in the field and professionals who want to refresh their skills.

Invited speakers

Lei Jiang
Chinese Academy of Sciences

David Quéré
ESPCI

Doris Vollmer
Max Planck Institute

Alidad Amirfazli
York University

Dimos Poulikakos
ETH Zurich

Frieder Mugele
University of Twente
